Yesterday's game at Boise ended badly for Salt Lake. The team from this town was four to the good in the ninth. Jensen was in the box first but was unsteady and gave many passes. He was taken out and replaced by Tozer who did pretty well until the last inning when he was batted all over the lot. In addition to the batting, Bruyette at short made a bad numble of a ball and before the Infants got through they scored eight runs. McFarlan started out for the Bables, but he was hit pretty freely and his place taken by Wright. The game was slow and uninteresting. The score fol-lows:

OTTO SIELOFF ARRIVES.

Goes at Once to Ogden to Complete Training for Contest.

Yesterday afternoon Otto Sieloff, "The Fighting Dutchman," accompanied by Tommy Byrns, a middleweight boxer, arrived in Sit Lake from Chicago, Last evening, in company with Manager Kelley of the Snamrock club, they left for Ogden, where Sieloff will put the finishing touches on his training. He will work out at killy McCoy's gymnasium. Otto had trained for several days in Chicago, and says he only needs a little roadwork to put him in fine fettle.

While returning from the depot yesterday Sieloff and McCarthy met. After shaking hands and exchanging the usual greetings, Jerry sult to Sieloff:

"Otto, they have been knocking me pretty hard of late, but I am going to show them up this time! I am going to defeat you this time, h.e. I am in fine shape now, and I will be down to weight when we meet. You look a little larger, but remember what I say I am going to Training for Contest.

"All right, Jerry," replied Sieloff. "If you can beat me I will have no kick coming, but we will know more about that after the contest. I am sure of one thing. Jerry, no matter who wins, the people will see a good show."

In speaking of the arrangements made, Manager Kelley said:
"I am not worried in the least about either man. Both are in good shape, but after the many personal attacks made upon me I feel that I should take absolutely no chance, no matter how insignificant. Therefore, I want Sieloff to train at Ogden. Jerry will complete his work at the Sait Palace. The boys will not see each other again until they enter the ring next Tuesday night."

The Salt Lake papers are whistling their joy because the club at the capital took two out of six games from Spokane. If this is the best the team can do on the home ground, and if this is cause for local boasting, probably a series of goose eggs on the present tour of the Elders will swell the pride of the capital to a bursting point.—Utah State Journal.

Portland, Or., May 17.—The Telegram says: It is reasonably certain that by the end of the week D. E. MELVIN-SKELTON RECITAL

Large and Appreciative Audience Hear Them Do Some Excellent Work.

The First Congregational church was crowded to the doors last evening, by a delighted audience in attendance on the song and violin recital given by the pupils of Mrs. A. D. Melvin and George E. Skelton. Seats were early "at a premium," and before the recital began it was a case of "standing room only," Encores were not allowed. Had they been, the recital might have lasted until after midnight; but all of the youth-ful performers were warmly welcomed, and "made to feel perfectly at home." The presentation of flowers was a strenuous feature of the evening.

Mrs. Reno's Letter and Advice to Mothers, Published by Request of Mr. Druehl of Druehl & Franken.

Mrs. Reno says: "Our daughter Marion was troubled with indigestion: she became fretful, could not sleep at night, lost flesh, and we feared that we should lose her. We tried different doc-tors, and many kinds of medicines, with no apparent success, until we tried Vinol. Two bottles cured our little daughter; she can eat anything, sleeps well and has gained flesh. We think is the best medicine in the world for children. I advise every mother who has an ailing child to try Vinol. I know nothing equals it, and it tastes so good there is no trouble in getting children to take it."

INDIAN OFFICER TALKS.

Captain Downs Tells of What the Re Man is Doing With Assistance.

Captain Thomas Downs, of the Indian office at Washington, was in town last evening, en route from investigating the condition of the Indians in the Moapa country, and registered at the Knuts ford. He says there are about 200 Plutes on the reservation of 1,100 acres, Piutes on the reservation of 1,100 acres, of which only 100 acres are under cultivation, and about 500 additional acres, though well watered, are not cultivated. The captain will recommend that the Indians be provided with farming implements and live stock so that they may take care of themselves, or the lands leased to the highest bidders. Captain Downs speaks highly of the productiveness of the lands, and of the value to be added by cultivation. He says there are some 250,000 Indians in the United States, the same number as existed 10 years ago. existed 10 years ago.

CROPS ADVANCING.

Warm Days and Moderate Showers Beneficial to Grewing Vegetation.

The weekly crop bulletin just issued by the Utah section, United States department of agriculture, for the week ending May 16, has this to say:

The violin numbers afforded great pleasure to the audience. His pupils always do well, and Mr. Skelton has often shown his abilities as an instructor. The performance of his younger pupils occasioned much favorable comment. Little Romania Hyde in her performance of the "Stephanie Gayet" the Generally clear weather with warm days and rather cool nights prevailed during the week. Moderate showers ment. Little Romania Hyde in her performance of the "Stephanie Gavot," the playing of Clarence M. Burton in the "Tarantelle," and "Traumerle," and Mascagni's "Intermezzo," by Edward Fitzpatrick brought out prolonged applause. A marked feature was the trio by Misses Lena Broaddus, Janet Wittick and Helen Hartley, who also appeared to advantage in solo numbers. Mrs. Majorie Brooks made a hit in the Godard's ever favorite and beautiful "Berceuse" from "Jocelyn." The evening was closed with the "Lost Chord," by a ladies' quartet composed of Mrs.

during the week. Moderate showers fell over the southern portion of the section which were very beneficial to growing vegetation. Under the impulse of this favorable weather, crops made rapid advancement, except in localities, principally in the extreme north, where the cold nights retarded growth.

Fall wheat and barley were looking well. The seeding of spring wheat and oats was neairng completion with the early sown coming up to good stands. Beet planting was in progress with the early sown coming up. Lacerne was generally in good condition; irrigation had begun in some localities. Fruit was in full bloom and generally in promising condition. Some damage by frost was reported, but it is not thought to be serious. Potato planting was in progress, though in many localities this work was completed. Gardens were generally doing well, though some tender plants were injured by frost. Some hay was good and Jock west portion, with yields below the average. The range was good and lock in fine condition. Sheep shearing was nearing completion.

VEGETATION ON THE MOON.

Whether or not there really is vegetation on the moon's surface is a matter of some dispute. Prof. Pickering helieves that there is, basing his belief upon observations of what he has called 'variable spots' -- portions of which ex-hibit a rapid darkening, beginning shortly after sunrise, followed by an equally rapid fading toward sunset, accompanied by a diminution in size as they darken. From the peculiar char-acter of the variation observed Prof. Pickering concludes that organic life resembling vegetation is the only simle explanation of the changes which e has observed. Considering the long lunar day as a miniature terrestrial year, the theory of such life becomes colorable. The vegetation, if there be colorable. The vegetation, if there be any, shoots up, flourishes and dies in a lunar day just as it grows and withers on the earth in a terrestrial year.—Kansas City Journal.
